## SQL Injection Attacks!

SQL injection is a technique that exploits a security vulnerability occurring in the database layer of an application. It may be over a decade old, but even the best of us need a reminder once in a while. SQL injection occurs when users submit a line of code into an online form and, in turn, performs a number of hostile events. To prevent such attacks, you can visit [nextmill.net/knowledge.php](http://nextmill.net/knowledge.php) for tips and tutorials on SQL Injection Attacks in ASP.NET, Classic ASP and in ColdFusion. We also provide information on cleaning a SQL Injected Database.

## Blogging Basics

A great way to keep family, friends and clients up to date with your life or business is to start a web log or blog for short. Update your blog often with articles, pictures, RSS feeds or videos to keep visitors coming. Wordpress.com and Blogger.com are free and easy blog publishing websites. Personalize your design and make it pop out in the search results allowing your blog to be within reach of millions. Blogs are also a great way to share and discover a new hobby. Join the blog-o-sphere!

At this address we have articles on maintaining your website, configuring email and script resources. You are also welcome to contact our support team on the web, on the phone or via email at [support@nextmill.net](mailto:support@nextmill.net)

## Meet Gary!

Gary Kovacs has been a part of the Millennium Systems Team since May 2007. He is a Microsoft Certified Professional (MCP) and is Leviton Certified for CAT5 installations. Gary is an integral part of the close-knit group here at Millennium Systems. With Gary on the team, we are better suited

to give you high quality service on a personal level. He enjoys meeting the challenges of the IT industry, especially at Millennium Systems. When he is not problem solving and trouble shooting, he is mountain biking, hiking and PC gaming.

## On Site News

Our ability to serve you has just grown stronger! We have added a third On-Site Technician vehicle to our fleet. Look out for our all new 2008 black Scion XB with yellow highlights.

## Laura's House

As some of you know, Millennium Systems is closely involved with community organizations, one of which is Laura's House. Since its inception in the early 90's, Laura's House has continued to give assistance to victims of domestic abuse. As the only state-approved comprehensive domestic violence agency in Orange County, it has provided unmatched service to the over 840,000 residents it serves. Laura's House offers shelter services, counseling and legal services along with preventative education.

If you would like to participate with Laura's House you can visit their website, [www.laurashouse.org](http://www.laurashouse.org).

Laura's House of Treasures  
510 N. El Camino Real  
San Clemente, CA 92672  
(866) 498-1511

**TIP OF THE SEASON:** Computer difficulties? Try rebooting your computer for a fresh start. Sluggish computer? Try defragging your computer for a faster, more efficient machine.
